Supply New and Rental Equipments

01 - SCISSOR LIFT (DIESEL & ELECTRIC)

We offer a wide range of diesel and electric scissor lifts for safe, efficient access at height. Suitable for both indoor and outdoor use, our lifts help you save time and increase productivity on site.

RANGE FROM 5.66 - 18.15 M 227 - 680 Kg

APPLICATIONS:

- FM & Interior Works
- Ceiling Lighting Work
- Fire Detectors/ Systems
- Indoor & Outdoor Painting/ Sandblasting
- Stage/ Rigging Setup
- Warehouse Structures

02 – BOOM LIFTS (DIESEL & ELECTRIC)

We provide diesel and electric boom lifts in both telescopic and articulated models, with heights up to 56.86 meters. Our range ensures safe, efficient access for all types of elevated work.

RANGE FROM 12.0 – 56.86 M 200 – 340 Kg

APPLICATIONS:

- Repairs
- Cleaning
- Installations
- Maintenance
- Facade Work
- Cladding Work
- Industrial & MEP Work
- FM & Interior Works
- Ceiling Lighting Work
- Fire Detectors/ Systems
- Indoor & Outdoor Painting/ Sandblasting
- Stage/ Rigging Setup
- Warehouse Structures

03 – TRACKED CRAWLER LIFTS or SPIDER LIFTS (HYBRID POWER)

Our JLG tracked compact crawler range includes 4 models with heights from 13 to 33 meters, providing a wide working envelope and exceptional flexibility. Equipped with 4 outriggers, they work on slopes up to 15° and are compact enough to fit through standard doorways and elevators, making them ideal for both indoor and outdoor access in limited spaces.

RANGE FROM 13.30 – 25.60 M 230 K

APPLICATIONS:

- Cleaning
- Installations
- Maintenance
- Facade Work
- Industrial & MEP Work

03 – PUSH AROUND VERTICAL LIFTS

We provide low-level access lifts designed for safe and efficient work at height, ideal for indoor use and tight spaces.

RANGE FROM 3.50 – 7.42 M and 113 – 295 Kg

APPLICATIONS:

- Repairs
- Cleaning
- Installations
- Maintenance
- Facade Work
- Cladding Work
- Industrial & MEP Work

03 – MATERIAL HANDLING EQUIPMENT

Our range includes forklifts and telehandlers with various attachments to suit different tasks. From compact forklifts for tight spaces to heavy-duty telehandlers for larger jobs, we've got the right solution for your site.

RANGE Up to 16 tons

APPLICATIONS INDUSTRIES:

- Aerospace
- Automotive
- Chemicals
- Construction
- Consumer goods
- Food
- Manufacturing
- Pharmaceutical

03 - EARTH-MOVING EQUIPMENT (DIESEL)

We offer a wide selection of earthmoving machines, from skid-steers to backhoe loaders. Whatever the job, we have the right equipment, and our team is always ready to help with expert guidance.

RANGE FROM: Up to 3 tons

APPLICATIONS:

- Lifting Heavy Loads
- Excavation
- Pile Driving
- Drilling
- Digging Post Holes
- Surface Compression
- Breaking Rocks or Concrete Structures

03 – LOW-PRESSURE AIR COMPRESSOR (DIESEL OIL-FLOODED)

Our range includes 15 models from 7 to 12 bar and 125 to 1800 CFM. All units are equipped with air aftercoolers and Zone II specs, making them ideal for challenging job sites.

RANGE FROM : 125 – 1800 CFM 7 – 12 BAR

APPLICATIONS INCLUDE:

- Powering pneumatic tools and equipment
- Operating air machinery on production lines
- Cutting and welding equipment
- Powering ventilation systems
- Sandblasting and finishing metal

03 – DIESEL POWER GENERATORS

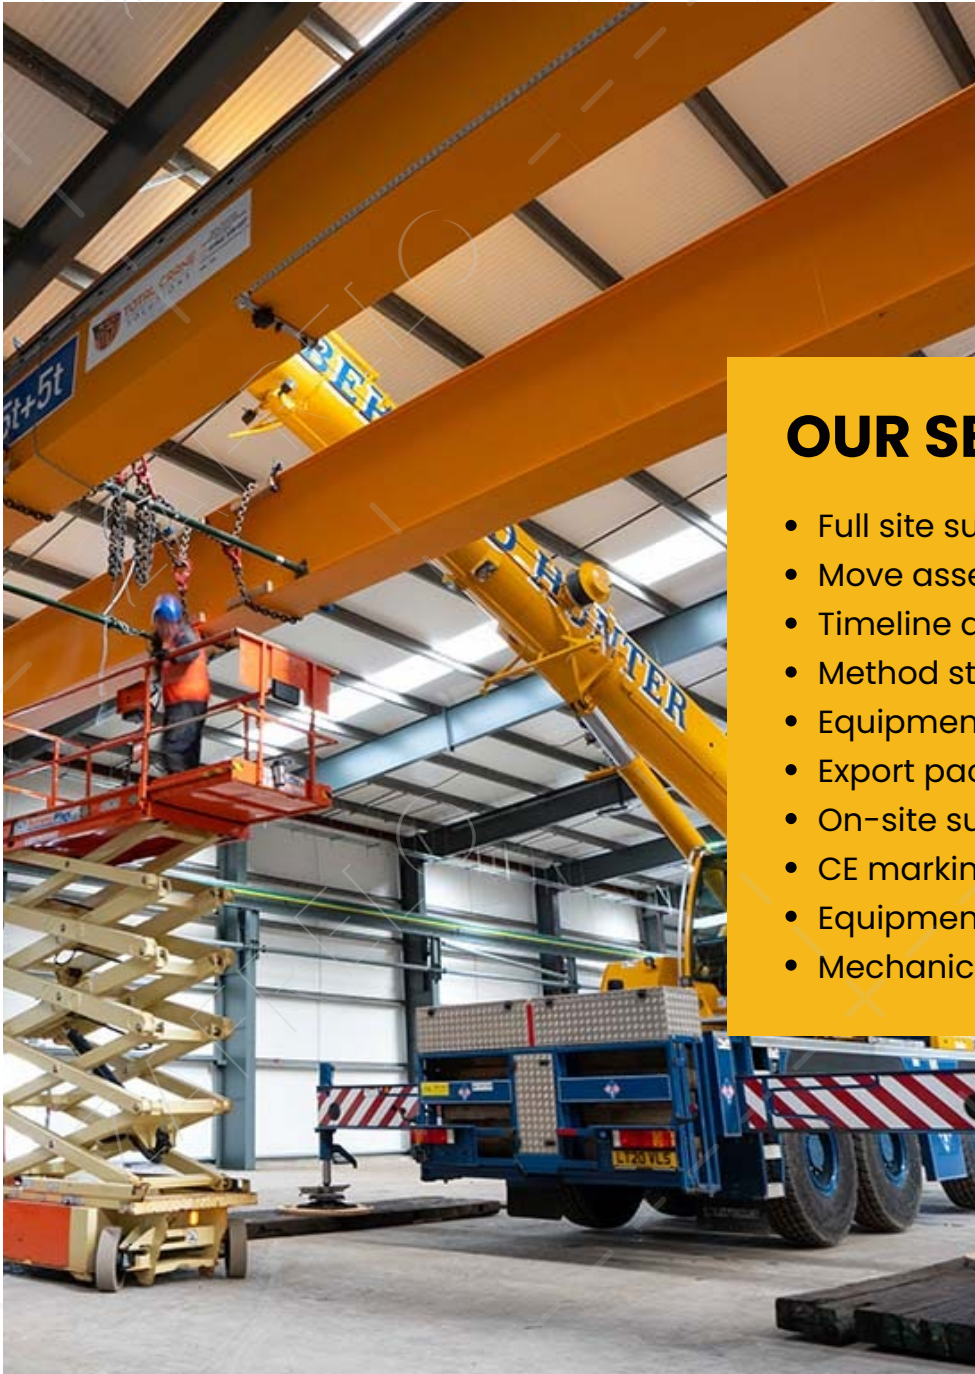

As experts in power generation, we offer one of the largest collections of diesel generators in the region, ranging from 20 kVA to 2000 kVA, with coordination options up to 20 MW. Our generators meet the highest quality and safety standards and are trusted in major projects for reliable performance.

RANGE FROM 20 – 2000 kVA

ADVANTAGES & BENEFITS:

- Soundproofed equipment
- The canopy is made with Zintec corrosion protection & is equipped with locking doors.
- The fuel tank is equipped with a low fuel level sensor
- Muffler with spark arrestor and rain protection
- The control panel is installed inside and is visible through the viewing window.
- The control system generates warning signals and emergency shutdown signals.

OUR MACHINERY MOVING & RELOCATION (SHIFTING) SERVICES

We offer safe, reliable, and professional machinery moving and business relocation services, with end-to-end support, from planning to getting your machines back up and running.

OUR SERVICE COVERS:

- Full site survey
- Move assessment and facility evaluation.
- Timeline and schedule development
- Method statements and risk assessments (including CDM planning)
- Equipment decommissioning, removal, and decontamination
- Export packing (air, sea, and road freight)
- On-site supervision and project management
- CE marking
- Equipment modifications and upgrades
- Mechanical and electrical services, re-installation, and project monitoring

CERTIFIED AND LICENSED OPERATORS

Skilled professionals are ready to support your project safely and efficiently. They are available daily, weekly, or monthly. We provide IPAF-certified and licensed operators for:

- Forklifts
- Boom Loaders
- Boom Lifts
- Scissor Lifts
- Spider Lifts
- Spider Cranes

OUR VALUES

Safety First

We prioritize the safety of our team and clients in every aspect of our work.

Client Satisfaction

We're committed to delivering quality results on time, every time.

Excellence in Execution

We drive success through strong technical skills, dedication, and a deep commitment to our work.

Safe Work Environment

We maintain clean, hygienic, and safe conditions for all workers on site.

People Matter

Our employees are our greatest asset. Their motivation, performance, and growth are central to our success.

Social Responsibility

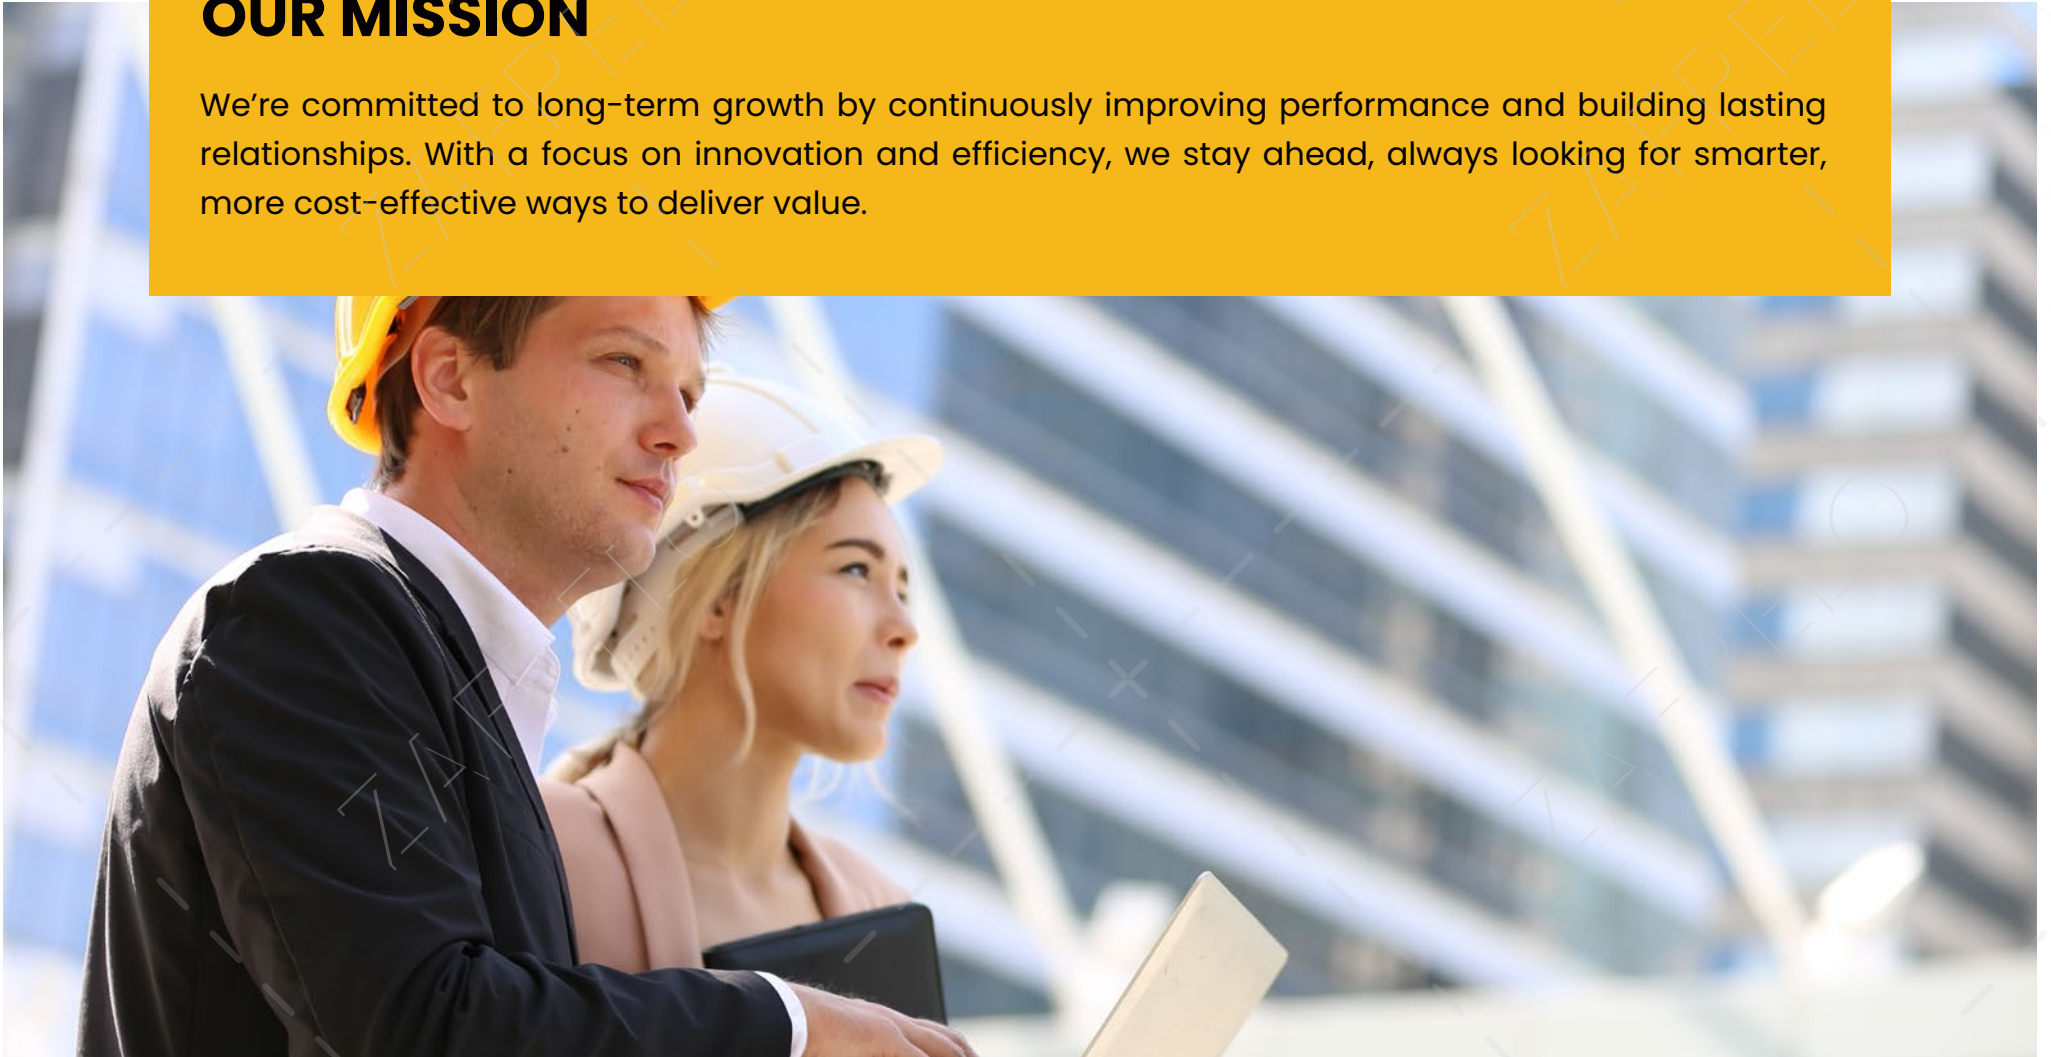

We actively support local and global communities, believing in the power and responsibility of giving back.

OUR VISION

To be the most trusted and safety-focused company in the industry, known for exceptional service, dedicated people, smart technology, and reliable equipment.

OUR MISSION

We're committed to long-term growth by continuously improving performance and building lasting relationships. With a focus on innovation and efficiency, we stay ahead, always looking for smarter, more cost-effective ways to deliver value.

OUR CONNECTION

We've built strong relationships with our team, creating a culture of collaboration, knowledge-sharing, and support. By working together as one, we promote sustainable growth and collective success.

OUR COMMITMENT

We believe in delivering solutions with purpose, making spaces better for the people who live and work in them. By staying aligned, adapting to change, and working with shared goals, we create real value for our customers and communities.

OUR DARING

We lead with boldness, creativity, and confidence, rooted in experience and motivated by fresh ideas.

WORKING AS ONE TEAM

We don't believe in working in silos. Everyone on our team looks out for more than just their own role.

If a security guard notices something out of place during a routine patrol, like a spill or a mess, they'll either inform the cleaners or handle it on the spot. It's small actions like these that make a big difference, helping reduce service calls and letting our clients stay focused on their work.

WORKPLACE HEALTH & SAFETY

Everyone deserves to feel safe at work, and we take that seriously. Our Health and Safety Policy is all about creating a clean, secure, and hazard-free environment for our team.

We follow all legal standards and go the extra mile to maintain the best possible working conditions for everyone on-site.

Reach

This Workplace Health and Safety Policy applies to all current and prospective employees, as well as volunteers, contractors, and consultants working with the company.

QUALITY POLICY

We believe quality is at the heart of everything we do, because our customers deserve nothing less. We're committed to delivering products and services that meet, and often exceed, expectations.

To support this, we've built a solid quality management system focused on continuous improvement and customer satisfaction. Here's how we make it happen:

- We regularly collect and review customer feedback
- We handle complaints with a clear, structured process.
- We carefully select and monitor suppliers.
- We invest in training and developing our team.
- We audit our processes to maintain high standards.
- We set measurable quality goals that align with our business focus.
- We review audit results and feedback to keep improving.

Everyone at the company plays a role in maintaining quality. It's not just one person's job. While the managing director leads the effort, each team member helps make sure quality is part of our everyday work.

Our quality policy is shared across the company and kept up to date, so everyone stays aligned and informed.

RISING TOGETHER

You don't need to be big to make an impact. With the right people and shared purpose, even a small team can achieve great things.
